Congestion charges in Stockholm

The introduction of congestion charges in Stockholm was one of the reasons why Stockholm was awarded "European Green Capital 2010". The introduction has led to reduced traffic with somewhere between 20

Creating the Zero Energy Buildings of the Future

The new regional headquarters of Region Skåne is one of the most energy efficient buildings in Sweden. This represents one further step in the direction of energy efficiency – planning and constructing the

Cutting Edge Sustainable Building

In Ornskoldsvik, we have recently built schools, nursing homes, swimming pools and office buildings. All along, the minimization of energy has been an important issue.
